

LA BOVEDA

RESTAURANT Y BAR

CHILI PEPPERS

WELCOME TO RESTAURANT Y BAR

LA BOVEDA

When the gods created the first humans, they took two cobs of corn and breathed life and soul into them. This is how the Mayan creation myth tells it. Corn, which was also sacred to the Aztecs, is still one of the country's most important staple foods.

Before the Spaniards reached America, the indigenous people of Central America had already made tortillas one of the most common ingredients of Mexican cuisine thousands of years ago. Even today Mexican cooking draws on tortillas, beans and chilies in thousands of variations, clearly demonstrating its heritage.

The Spanish legacy, in turn, is visible in numerous delicious meat dishes, wheat as well as dairy products. Both culinary traditions enrich each other as they merged, giving birth to a distinct Mexican cuisine that nowadays finds more and more lovers all over the world.

We hope that this brief introduction to the origins of Mexican cuisine has woken your appetite for what follows and wish you a pleasant evening.

Family Hans Sobotta und their Team

FAJITAS

Fajitas are marinated meat and / or vegetables that are fried and served in a pan with coleslaw, guacamole, sour cream, chili salsa, a mozzarella-cheddar cheese mixture and, of course, wheat tortillas (or corn tortillas) that can be spread with any of the dips, filled with meat or vegetables, folded and eaten out of hand.

Complicated?
No! Practice makes perfect.
